Updating OS Image for cMT-SVR & mTV-100 Series

Updating OS Image for cMT-SVR & mTV-100 Series

The following shows the steps to update the OS image of cMT-SVR & mTV-100.

1. Copy the MTfirmware.bin file to SD card.
2. Flip DIP Switch 2 of cMT-SVR/mTV-100 to ON position.
3. Run HyperTerminal on your computer and set the parameters to 115200, 8, N, 1. Connect your computer with cMT-SVR/mTV-100 via COM1 RS-232 port.
4. Insert SD card to cMT-SVR/mTV-100 and reboot to update the OS image. The update succeeds when HyperTerminal displays Starting Kernel about two minutes after reboot.
5. Flip DIP Switch 2 of cMT-SVR/mTV-100 to OFF position.
